

## Jørgen Behrens

Senior Vice President and Chief Product Officer

Jørgen Behrens is Chief Product Officer of HERE. In this role, he is responsible for the evolution and commercial success of all HERE products including content, location services, platform and industry offerings.

Jørgen joined HERE from Royal Philips where he founded and led a business focused on medical grade wearable devices and accompanying services for the prevention of chronic diseases.

Prior to that, as head of engineering and content operations at TomTom, he initiated several major technology changes critical to production and product innovation of the company. Before TomTom, Jørgen was CMO at Smartphone OS consortium Symbian, and he joined Nokia after it acquired Symbian. Before Symbian, Jørgen worked as a strategy consultant in the mobile industry.

He holds a Bachelor and Master's in Business Administration from Nijenrode University, Netherlands.
